I think I speak for a lot of people when I say that I'm sick and tired of media conglomerates like Clear Channel ruling the airwaves. Why will the government do their best to bring down companies like Microsoft for being "monopolies" and then turn a blind eye to the fact that a handful of huge companies controls EVERYTHING on radio and television? Put a stop to this insanity, and let people who are willing to pay for their radio content get the same content of those who choose to listen to "free" radio.
